

June 2021

## **Spectrum Semiconductor Materials response to the COVID-19 Pandemic**

Due to our role in the Supply Chain of materials used by some of our customers and their roles in supporting the mission of the United States government we have been deemed an essential business. Spectrum has been operating on a hybrid / modified schedule since March 2020.

We are pleased to announce we will be resuming shipping and receiving operations back to five days a week starting June 1, 2021. Spectrum remains fully operational and will continue to support and fulfill our customer requirements reliably and efficiently.

We are strictly following the mandates and health orders issued by local, state, and federal health agencies. The health and wellbeing of our employees, customers and vendors remains our top priority. We have proactively instituted enhanced cleaning protocols in our office.

We hope that you and those around you are and remain safe. Thank you for your business.

We appreciate the patience and cooperation of all our customers and vendors during these extraordinary circumstances.

Warmest regards,

Steven Ochoa  
President and COO
